Travelling

https://www.myolbd.com

Role: Frontend & Backend

Technology Used: PHP, SCSS, MySQL, JavaScript, HTML

Brief: This company works with call services. Here I have designed UI for their website according to their requirement. Then I started building websites from scratch.

https://www.feenixlab.com

Role: Frontend & Backend

Technology Used: PHP, SCSS, MySQL, JavaScript, Nodejs, HTML

Brief: Here I have designed the UI for their website according to their needs. Then I started creating websites from scratch. They didn't have a backend to control their website, so I developed a backend to control them later.

https://creative-agency.web.app/

Role: Frontend & Backend

Technology Used: React, MongoDB, NodeJS, ExpressJS, Firebase, React-bootstrap, SCSS

Brief: A simple single page web application(SPA). In this application, the user can login to receive the service of his choice and the admin can control the entire website from the admin panel.
